ACKNOWLEDGEMENTS

To the unknown reviewers in 1993

When a paper is submitted for publications in B&D, the Editor-in-Chief usually asks three reviewers to review the paper. The following are names of all the reviewers, all of whom are experts in a particular field of child neurology and were kindly engaged in the hard work of peer review in 1993, even though they are neither members of the Editorial Board nor of the Advisory Board.

On behalf of B&D, the Editor-in-Chief wishes to thank them for their generous donation of time, effort and patience. The Editor is grateful for their help and honored that they are willing to assist us in maintaining the high standard of B&D.
